# SUSPENSION SEATS 2024

**FLEX** suspension range

**FLEX** provides 225mm of ultra-smooth travel that is completely corrosion-proof, light, and tough.

Combined with our stainless steel shock absorber, there are no pinch points or sharp edges and it will withstand 10g impacts making it safe in every way

**FLEX**

Transforms any seat for a softer safer ride

**FLEX-pod**

Super light and super compact

Only  
3.3kg!

225mm

Picture shows **FLEX-pod** fully compressed

**FLEX-pod** brings 2/3rd of **FLEX** performance but in a package 1/3rd the weight and 1/2 the height.

That's 150mm of vertical travel in the smallest possible size to not only save your back but save space and money at the same time.

**FLEX-HD**

Rated for 10G vertically and 6G (crash) horizontally when used with seatbelts.

**ULTRA**-lite

# ULTRA-lite

The most lightweight  
suspension seat...

With **6" of travel** in a package which is so compact it can fit in even the tightest situation.

NOTE: **FLEX** and **FLEX**-<sup>pod</sup> suspensions can be fitted facing in either direction to suit your space requirements and the type of motion you prefer.

The top image shows "Reflex" orientation which moves forward with your body while "normal" orientation shown below will move slightly rearward during a slam.

## TRAX system

Floor plate + Rails + Adaptor = TRAX

Is a great retrofit as it covers all your old fixing holes and trim

For boat builders to arrange seats in rows

This plate allows you to quick mount your plinth, suspension or seat to shark TRAX

Allows any shark product to slide and quick-mount in any position

20mm added height
